

Radiation

# RESCUE

## Radiation Rescue Pain Relieving Gel - 8 oz. (236 ml)

- Provides immediate pain relief by covering exposed nerve endings
- Limits or prevents Radiation Dermatitis
- Prevents delay in further radiation therapy treatments
- Rapidly cools and soothes
- Moisturizing hydrogel
- Support Product
- Reduces swelling, redness, and additional skin and tissue damage and breakdown
- Medical grade ingredients
- Portable, safe, and easy to use

Radiation Rescue is specifically created for maximum effectiveness on radiation burns.

Radiation Rescue is a moisturizing lotion-like hydrogel, that you do not rub into the skin. By placing a thick layer of the gel over the radiation burned area, you are able to pull the heat out of the skin, minimizing the damage to the skin.

The thick layer of the gel also covers the exposed nerve endings from the burn, offering immediate pain relief to the patient.

Radiation burns can quickly evolve from a first degree to a very serious burn. By keeping the burn area cool, Radiation Rescue is able to minimize the damage to the skin.

<b>INTL/US: CASE DIMENSIONS</b>	QUANTITY: 12 tubes WEIGHT: 7.4 pounds LENGTH: 6.25 inches WIDTH: 8.5 inches HEIGHT: 8.5 inches
<b>PRODUCT CODES</b>	UPC: 70213510082 INTL/US: RR08-12
<b>U.S. PATENT</b>	5,958,420
<b>INGREDIENTS</b>	Purified Water, Melaleuca Alternifolia, Emulsifiers and Preservatives
